# BLOOM

*Missionaries to Ecuador*

Dear Friends,

Here are a few of the things that happened over the past month.

We had a chance to visit missionary Kevin White in Bolivia and attend their youth camp. I had the opportunity to teach a class on service to God at the camp and was the first time I preached a full message in Spanish.

Bethany and I also had the opportunity to take a trip to Ecuador and visit two cities there. We visited Quito and Guayaquil. They are both cities of about 3 million people each, and both need more Gospel preaching churches.

In the first week of February, we had a medical missions team come down for a week to hold a medical missions clinic. They were a huge blessing, and God greatly used their efforts to be able to share the Gospel with many people.

Every day people would register and then be attended by a doctor or nurse. These doctors would do everything that they could for their physical needs, and then they would be sent to a counseling area. Pastors and church members would then take some time to share the Gospel with the people and pray with them. The people would then receive whatever medications need and leave.

We had a great response from this event, and we had over 2,000 people that came through the clinic and had a chance to hear the Gospel. There were also over 500 people that made professions of faith! At the end of the clinic, we distributed all the contact information of the people who had made professions of faith or had an interest in studying the Bible more to churches in different parts of the city, and they will be following up with those people.

Thank you so very much for your prayers and support!
