CHURCH PLANTING MISSIONARIES TO ECUADOR
KASON, BETHANY, JAXON, NOAH

God greatly blessed this past month!

We had the opportunity to host a kids and youth event the second week in March. We are very thankful for the Irish family that came from Michigan to help us put on and run this event. It was a three-day event, and we had over 50 kids and teenagers every day. On the last day, we had the graduation after the Sunday morning service, and there were over 130 people there, with 30 new adult visitors. Three kids made a profession of faith during this event!

We also had the chance to attend our mission's board regional conference the first week of March. We had an excellent time learning and were encouraged during that week.

This past week we have been remodeling the current building where we are located to have more space in the auditorium. Many of the men from the church helped us, and we are thankful that God is growing the church!

Bethany just finished a discipleship course with three ladies in the church, and one of them will be getting baptized in April! We are thankful to see people growing in their faith!

Bethany is due with our third child in April, and we look forward to adding another child to the family! Please pray that everything will go well with the delivery and birth.

Thank you for all of your prayers and support!

God Bless, The Blooms
